

# I Wanna Riot

Rancid

I saw a man get the beat down  
Took his money and his wallet left him dead on the ground  
I saw them gather celebrate the crime  
Teaching us the laughter another lesson of mankind  
I raise my hand, I've got another question:  
"If I start a riot, will I get protection?  
Cause I'm the kid whose got a lot of problems  
And if I throw a brick maybe the brick will go and solve them."

Oh...yeah...I want to riot  
Oh...yeah...I want to riot

I'm boiling up the city's on heat  
Red alert tension you know it's on the street  
Code blue city of the dead  
Sirens in the night with the lights bloody red  
See how we do this (hell yeah) see how we ride  
Throw a brick light the fuse dodge a bullet duck inside  
It's a statistic hammered on my brain  
Branded with a number another pawn in the game

Oh...yeah...I want to riot  
Oh...yeah...I want to riot

Oi! Oi! Oi! Oi! Oi! Oi!  
In front of me the misery  
Crying in line and dying burning debris  
My face is burning...oh so quick...so quick  
Like a candle at the end of its wick  
Well, I turn the dial, I turn the channel  
I turn into a monster fighting the eternal battle  
I need some help and, there is no doubt  
If I'm gonna go down I'm gonna take somebody out

Oh...yeah...I want to riot  
Oh...yeah...I want to riot  
Oh...yeah...I want to riot  
Oh...yeah...I want to riot  
Riot!
