

# It's Quite Alright

Rancid

I can tell you how it'll go down  
But only you can tell me how it'll end  
All systems can stop right here  
And all we are is pretend  
So many things can be a mystery  
And all we are seekin' is freedom  
We realize Mr. Reality  
I'm gonna be there to greet him

It's alright  
It's quite alright with me

When ignorance manifests like that  
It's hard to stop  
Underdeveloped: don't lose your balance  
And then take a divine drop  
And if you find my name in regards to danger  
I urge you all to take heed  
Causation, the end of the world  
Will set me free

And that's alright  
It's quite alright with me  
Yeah, with me
