

# She's Automatic

Rancid

The way that she moves  
Well I was aroused, impowered, impassioned by every move  
It's so cold outside, we need a place to hide  
Go into the club to thaw out for the night

She's automatic, so automatic  
The way that she moves, the way that she moves  
She's automatic, so automatic  
The way she moves

The situation was tricky, I was feeling so proud  
The bass and the drums, the music so loud  
She asked me if I would stand by her side  
Like glue that I would till the end of the night

She's automatic, so automatic  
The way that she moves, the way that she moves  
She's automatic, so automatic  
The way she moves

My head was spinnin' a million miles an hour  
The chance I was takin', I get anxious around her  
She put her head on my shoulder, I started to hold her  
Swingin' and swayin' the morning began

She's automatic, so automatic  
The way that she moves, the way that she moves  
She's automatic, so automatic  
The way she moves

I say the way she moves, yeah  
I say the way she moves, yeah  
I say the way she moves
