

## This Place

Rancid

This place is a tale of terror  
This place is a ghost town now  
This place has lost its people  
This place has lost its charm

The coals on the fire ain't burnin' no more  
In the lake shore foundries  
The workers mislead by corporations  
That knows no boundries

This place is a tale of terror  
This place is a ghost town now  
This place has lost its people  
This place has lost its charm

The land of liberty has been betrayed by  
The monster corporations  
The monster won't stop 'till  
It lays waste to everything

This place is a tale of terror  
This place is a ghost town now  
This place has lost its people  
This place has lost its charm  
This place  
This place
