

You Want It, You Got It

Rancid

You want it, We got it
This is the place
Where everyone can belong
You want it, we got it
Kicking up a riot
Won't you all sing along

Can't tell you
where I was going so tired
It was showing
like the wind I'm blowing
Every town man I'm know in

You want it, We got it
This is the place
Where everyone can belong
You want it, we got it
Kicking up a riot
Won't you all sing along

Some live a life
of indecision
Strung out in the petty schisms
I heard GBH
I made a decision
Punk Rock is my religion

You want it, We got it
This is the place
Where everyone can belong
You want it, we got it
Kicking up a riot
Won't you all sing along

I sit back
and I think its funny
You we're so worried
about the money
Cloudy days are looking sunny
So why don't you come
and stick with me honey

You want it, We got it
This is the place
Where everyone can belong
You want it, we got it
Kicking up a riot
Won't you all sing along

To all our friends
BY this I swear

You want it, We got it
This is the place
Where everyone can belong
You want it, we got it
Kicking up a riot

Won't you all sing along
