

Little Angel

Random Eyes

I believe you came from heaven
The gift of love from God to us
When I look into your eyes
when you smile
I believe there is God with us
You are everything to me, my baby
What would I have without you

Little angel you are
When you are crying in the night
Little angel you are
When you are sleeping in your bed
Little angel you are
When I see your smiling face
Little angel you are
When I hold your hand in mine

Years will go by like the clouds
in the wind
And I hope you will stay in truth
God is love and His mercy reach to you
Live in peace blood is over you
One thing I want you to know, my baby
Love is everything you need

World will be cold
when you open the door
Keep your look in the cross
When I have gone away
There is hope in the air
I can see you in heaven
