

I'm All About It

Randy Houser

Thinkin' about you baby all the time
On my brain honey I ain't lyin'
Picture you peaceful in my bed
Better wake up you sleepyhead

Thinkin' about things I need to say
Baby this won't wait for no rainy day

I'm all about you all about me
All about locking up knocking knees
All about love all about us
All about baby I'm about to bust

All about kissin' in the big back seat
All about dippin' in the birkon creek
All about goin' down all the way
Hey baby I'm all about it

Well I'd admit it baby yes I do
I get off on the way you move I do
The way that hand lays on your hip
When you shake that finger and you give me lip

Well your redhead temper don't scare me none
Matter of fact it kind of turns me on

I'm all about you all about me
All about locking up knocking knees
All about love all about us
All about baby I'm about to bust

All about kissin' in the big back seat
All about dippin' in the birkon creek
All about goin' down all the way
Hey baby I'm all about it

I ain't about leavin' any room for doubt
Gonna get it all out gonna scream and shout

Well I'm all about you all about me
All about locking up knocking knees
All about love all about us
All about baby I'm about to bust

All about kissin' in the big back seat
All about dippin' in the birkon creek
All about goin' down all the way
Hey baby I'm all about it

Well I'm all about you all about me
All about locking up knocking knees
All about love all about us
All about baby I'm about to bust
