

In God's Time

Randy Houser

In God's time
A million years might only be a single day
And everything He does gets done His own way
In God's time

And in God's time
You'll find that certain someone you've been praying for
And they'll be everything you dreamed of and a little more
In God's time

Oh, but no one knows
Not you or me
It might be tomorrow or it might never be
Oh, but don't lose faith
Put it in His hands
'Cause it might be that He might have a bigger plan
Than you had in mind
Miracles happen
In God's time

And in God's time
You'll finally get the chance to hold your baby girl
And all the sudden everything'll make sense in this crazy world
In God's time

Oh, but no one knows
Not you or me
It might be tomorrow or it might never be
Oh, but don't lose faith
Put it in His hands
'Cause it might be that He might have a bigger plan
Than you had in mind
Miracles happen
In God's time

And In God's time
You go to sleep and wake up with wings and learn to fly
And you finally meet your loved ones on the other side
In God's time
