

Lucky Me

Randy Houser

Saw you when you walked in, baby I locked in
I can't help can't keep myself from staring like a fool
everybody talkin', everybody rockin'
but I ain't listenin', I ain't heard a word they said since you
came over, baby it was game over

Lady lucky me, lady look at you
girl if you were standin' where I'm standin'
you'd be shakin' in these boots
and they would walk you on out to your car
and lay some just forget about it love lessons
on that little heart or we could get outta here,
go somewhere, I don't care, meet you there,
I just can't believe, lady look at you and look at lucky me

Baby I'm dreamin' cause there ain't no reason
a girl like you'd be talkin' to a lonley son like me
so before I wake up, girl I better take you up
on anything and everything that has to do with me and you
fallin', baby I'm all in

Lady lucky me, lady look at you
girl if you were standin' where I'm standin'
you'd be shakin' in these boots
and they would walk you on out to your car
and lay some just forget about it love lessons
on that little heart or we could get outta here,
go somewhere, I don't care, meet you there,
I just can't believe, lady look at you and look at lucky me

Yeah baby we could walk on out to your car
lay some just forget about it love lessons on that little heart

or we could get out of here, go somewhere,
I don't care, I'll meet you there,
I just can't believe, lady look at you and look at lucky me

Saw you when you walked in, baby I locked in
