

## Power of a Song

Randy Houser

He hadn't told his kids, he hadn't told his wife  
He made plans to leave it all, leave it all behind that night,  
He had his car gassed up, he had his suitcase packed  
He planned to hit the road, he hid it hard to not look back  
He made it 40 miles outta town  
And turned on that radio and turned that car around

That's the power of a song  
It grabs you by the heart  
It's gonna find you when it wants to  
No matter where you are  
That's the miracle of music  
Love's the only thing as strong  
That can move you when you hear it  
That's the power, the power of a song

His voice inside her head said, you're not strong enough  
But in her heart she knows, that love shouldn't hurt that much  
Knew what her future held like, in the back of his hand  
She tried a hundred times, but she couldn't leave that man  
She made it 40 miles out of town  
And turned up that radio and never turned that car around

Well, that's the power of a song  
It grabs you by the heart  
It's gonna find you when it wants to  
No matter where you are  
That's the miracle of music  
Love's the only thing as strong  
That can move you when you hear it  
That's the power, the power of a song

That's the miracle of music  
Love's the only thing as strong  
That can move you when you hear it  
That's the power, the power of a song
