

## Song Number 7

Randy Houser

Song Number 1, yeah, that's the one  
That was bumpin' outta the speakers  
Everybody knew the words  
Everybody sang along  
Everybody could see her  
And the sweet melody of song number 3  
Had her slidin' on over to me...but

Song number 7  
Took me all the way to heaven that night  
Song number 7  
Cranked up to eleven set the mood just right  
I was holding her tight  
She had her hands in the air  
She was fallin' in love and I was already there  
Song number 7

There were stars in the sky sparks in her eyes  
And the smell of hickory burnin'  
Everybody there just disappeared like it was only me and her and  
the midnight blue behind a red dirt moon  
Had me caught up in the groove...of

Song number 7  
Took me all the way to heaven that night  
Song number 7  
Cranked up to eleven set the mood just right  
I was holding her tight  
She had her hands in the air  
She was fallin' in love and I was already there  
Song number 7

Everytime we wanna go back  
We just hit that track  
Song number 7... Yeah it was

Song number 7  
Took me all the way to heaven that night  
Song number 7  
Cranked up to eleven set the mood just right  
I was holding her tight  
She had her hands in the air  
She was fallin' in love and I was already there  
Song number 7

Song number 7  
Yeah it was song number 7
