

Will I Always Be This Way

Randy Houser

I shouldn't want another drink but I do
I shouldn't want to talk to her
'Cause she ain't you

I should probably go on and pay the tab
Pour myself in a cab and call it a day
But I know me, will I always be this way

Or will I ever be the kind of guy
Who's runnin' home every night
To the little house and doin' right
By the little wife, you know the kind of life
That I've heard about, from friends of mine
Got it figured out, they're doin' fine
And sometimes they worry about me
Will I never want to leave
Will I ever want to stay
Will I always be this way

I'm sorry that, you had to fall in love
With a music man
And I promise you, all I can do
Oh is the best I can
I could look you straight in the eye
Swear that I'll never make you cry or ever stray
Oh but I know me, will I always be this way

Or will I ever be the kind of guy
Who's runnin' home every night
To the little house and doin' right
By the little wife, you know the kind of life
That I've heard about, from friends of mine
Got it figured out, they're doin' fine
And sometimes they worry about me
Will I never want to leave
Will I ever want to stay
Will I always be this way

Will I never want to leave
Will I ever want to stay
Will I always be this way
