# Losing You

**Randy Newman**

Was a fool with my money
And I lost every dime
And the sun stopped shining
And it rained all the time
Did set me back some
But I made it through
But I'll never get over losing you

Do you know, I love you
Do you remember me
Should've told you
Cause it's true
I get over losing anything
But I'll never get over
Losing you

When you're young
And there's time
You forget the past
You don't think that you will
But you do

But I know
That I don't have time to wait
And I'll never get over
Losing you

I've been cruel
I've been hungry
Not for a while
I guess most of my dreams have come true
With it all here around me
No peace to I find
Cause I'll never get over losing you
No I'll never get over losing you
