

Before I Believe It's True

Randy Rogers Band

Well I've never seen this place
but I've been here waiting for you
I've held onto your love forever
Tell me you wanted me to
Before I believe it's true
Before I believe it's true

Wait just a minute baby
Don't make a single move
Prop me up just a little longer
But if I fall, you fall too
Before I believe it's true

Yeah, Before I believe in you and me
Before I let my heart go free
Tell me that you need me like I need you
Before I believe it's true
Before I believe it's true

But I've known for so long now
How love can change you
Baby please confess
The love has changed you too
Before I believe it's true

Yeah, Before I believe in you and me
Before I let my heart go free
Tell me that you that want me like I want you
Yeah before you see what no one sees
Before I let my heart go free
Tell me that you need me like I need you
Before I believe it's true
Before I believe it's true
Before I believe it's true
Before I believe it's true
