

# I Never Meant To Break Your Heart

Randy Rogers Band

How many times did I tell you  
I would always be true  
I meant those words when they rolled off my tongue  
There's nothing you can do

No, you didn't see it coming  
You never looked for a sign  
Sometimes two people, they just fall apart  
If you start to worry about running out of time  
But I never meant to break your heart

Love it's a gamble,  
But you never see your cards  
Nobody said it was easy  
Why's it gotta be so hard

Fools they fall headfirst  
I've made up my mind  
I don't know when we lost what we had  
After it took us both so long to find  
But I never meant to break your heart

It's not my fault, baby, you're not to blame  
If the role's were reversed, it would still be the same  
There are times that I just can't get you out of my head  
But I can't stay here tonight and get lost in your bed (get lost in your bed)

Didn't come here with your answers  
I think we both know the rules  
You know that I will always love you  
We both know that there is nothing left for you to do  
But I never meant to break your heart  
No I never meant to break your heart
