

Just A Matter Of Time

Randy Rogers Band

I saw you again last night
I caught you catchin my eye, I love to stare at you
Thru the smoke & lights
Well I can see that I
See that I just wanna hold you, I just wanna know you
I just wanna spend the night wrapped up in you

But its all, its all
Just a matter of time
Its all
Its all just a matter of time

Don't care how long this takes
Cause baby I cant wait, can't wait for you
To hold me, to know me
I just wanna spend the night wrapped up in you

But its all, its all
Just a matter of time
But Its all
Its all just a matter of time

Gonna wake up and find
Its just a matter of time until you are mine

Its all, its all just a matter of time
