

# Memory

Randy Rogers Band

The day she left me behind  
i couldn't get her off my mind  
thinking about all the times we had  
but i'm a new man now  
just don't ask me how  
i know it's hard to believe  
when that sun goes down  
you can find me out painting the town  
drinking away what used to be  
cause i've got nothing to prove  
and there's nothing left for me to lose  
nothing more to me than just a memory  
go out every night.  
up til the morning light  
having the time of my life  
when i see you out with him  
all i can do is grin  
glad it's not me whose missing out  
when that sun goes down  
you can find me out painting the town  
drinking away what used to be  
cause i've got nothing to prove  
and there's nothing left for me to lose  
nothing more to me than just a memory  
when that sun goes down  
you can find me out painting the town  
drinking away what used to be  
cause i've got nothing to prove  
and there's nothing left for me to lose  
nothing more to me than just a memory
