

Are We in Trouble Now

Randy Travis

Wasn't just the music
Wasn't just the wine
Some other kind of magic
Sending shivers up my spine

And I was falling
And I fell for you and how
Darling, are we in trouble now?

They say we're grown up
We've been searching all this time
And I wouldn't own up
Never would admit to flying blind

But in the darkness
We found each other anyhow
Darling, are we in trouble now?

When we talk it over
Our love was a cry from a distant shore
Then we found each other
And all that we'd been searching for

And I'm done denying
Yeah, I guess by now you know
I'm through with trying
Can't bring myself to let you go

And all these feelings
Said we never would allow
Darling, are we in trouble now?
Darling, are we in trouble now?
