Come See About Me

Randy Travis

Somebody listen I'm a voice in the distance cryin' Come see about me

I am a stranger In a world filled with anger Come see about me

I'm gettin' weary tryin' to carry this load all by myself I'm bone tired and fallin' Can't you hear me callin' I need somebody's help

I am a young man Growin' wild across this land Come see about me

I'm fourscore and twenty And I ain't got anybody Come see about me

I'm somebody's children alone and forsaken A wave that's lost at sea I'm right here behind you I'm all around you, so slow down Turn around and you will see

I'm your mother Your sister and your brother Come see about me

I am a baby My mother ain't no lady Come see about me

I am your maker The giver and the taker Come see about me
