

Everywhere We Go

Randy Travis

They took Your commandments off the schoolhouse walls
They say it's a crime to even pray within the halls
But bless the child that lets You in and knows without a doubt
Once You live inside a heart, they can't take You out

We are soldiers of the cross
We've been found to reach the lost
In city streets, down country roads
We take You with us everyday, and everywhere we go

Here's to those across the land, working in a place
Where the boss man and the government say they can't share their faith
They know all too well they'll lose their job if they get caught
But to win a soul for Jesus, they will risk it all because

We are soldiers of the cross
We've been found to reach the lost
In city streets, down country roads
We take You with us everyday, and everywhere we go

In the God of all creation, we put our faith and trust
And give our lives to You 'cause You gave Your life for us

We are soldiers of the cross
We've been found to reach the lost
In city streets, down country roads
We take You with us everyday, and everywhere we go

Everywhere we go
