

# Honky Tonk Side of Town

Randy Travis

Don't you cry, don't you moan  
Hang your head down all night long  
That old feeling sure ain't nothing new

It's in your walk, it's in your talk  
There's only one way to shake it off  
You got to get to it before it gets to you

So put a quarter in that jukebox, let it drop  
Put another one in, play it again, don't let it stop  
There's only one thing I've found, that'll turn it all around  
The blues can't do no business on a honky tonk side of town

You gotta slip, you gotta slide  
They're gonna try to nail your hide  
Yeah, they'll put a hurting on you, given half a chance

So get mean and get slick  
You gotta pull out every trick  
'Cause everybody knows the blues don't like to dance

So put a quarter in that jukebox and let it drop  
Put another one in, play it again, don't let it stop  
There's only one thing I've found, that'll turn it all around  
The blues can't do no business on a honky tonk side of town

Well, you can walk that walk and talk that talk  
And boogie till you shake it off  
No the blues can't do no business, the blues can't do no business  
The blues can't do no business on the honky tonk side of town
