

I'd Do It All Again With You

Randy Travis

Once upon a time in our life
We held the key to every door
And I that I desired
Was you forever more
I found love in a heart
Once broken far beyond repair
And you restored a sole
That had forgotten how to care
Everything we needed
Was at our beckon call
With you and I together
We could conquer all
When I needed badly
To be cheered up for a while
You were there
And all you had to do was simply smile
And holding things together
Was so easy for us to do
For you could turn to me for help
And I could turn to you
And jealousy was something
That never entered our hearts
For we were made for one another
No matter where we are
When things were at there darkest
I could hold you next to me

And I knew all would be okay
For you were strong and I was weak
So given every chance for me
To start my life anew
There'd be no question

I'd do it all again with you
