

In a Heart Like Mine

Randy Travis

In a heart like mine
With a steady beat
Just the right rythm makes you feel complete
And the rythm's right with you and I
And love starts pounding in a heart like mine

Put a quart or two
With a melody
Bring in a little chillbump harmony
Then let it build
Til the feelings right
And love starts playing in heart like mine

In a heart like mine
In a love like this
There's a sympony in a single kiss
Bring on the fiddles and the violins
And listen to the way they shine
I could live on the music til the end of time
With a love like yours and a heart like mine

In a heart like mine
Thre's poetry
In truth, emotion and honesty
So when the soul is there
And the words all rhyme
Love starts singing in a heart like mine

In a heart like mine
In a love like this
There's a sympony in a single kiss
Bring on the fiddles and the violins
And listen to the way they shine
I could live on the music til the end of time
With a love like yours and a heart like mine

In a heart like mine
In a love like this
There's a sympony in a single kiss
Bring on the fiddles and the violins
And listen to the way they shine
I could live on the music til the end of time
With a love like yours and a heart like mine

I could live on the music til the end of time
With a love like yours and a heart like mine
