

# Messin' with My Mind

Randy Travis

I said one thing I'd never do was care  
Or hang around for too long anywhere  
I could always move ahead  
With nothing left behind  
Then you started messin' with my mind

This town was just another place to play  
Have some fun and then be on my way  
You were just another way for me  
To pass some time  
Then you started messin' with my mind

I can't believe how much my mind has changed  
Or the way my life's been rearranged  
I swore one thing I'd never do  
Was be the stayin' kind  
Then you started messin' with my mind

The first in line for party time, was me  
Always the last to leave or try to be  
I never thought I'd wanna change  
I suited me just fine  
Then you started messin' with my mind

I can't believe how much my mind has changed  
Or the way my life's been rearranged  
I swore one thing I'd never do  
Was be the stayin' kind  
Then you started messin' with my mind

I swore one thing I'd never do  
Was be the stayin' kind  
Then you started messin' with my mind...
