

# My Heart Cracked (But It Did Not Break)

Randy Travis

You're spreadin' lies all over town  
About the way you brushed me off and put me down  
Well, I'm here to say make no mistake  
My heart cracked but it did not break

Well I can't deny, the hurt was deep  
The way you slammed that door and walked right out on me  
But I'm telling you, get one thing straight  
My heart cracked but it did not break

Shattered dreams lie everywhere  
Broken promises are all we share  
But I finally took all I could take  
My heart cracked but it did not break

Well I was blue but not for long  
'Cause this brand new love I got has made me strong  
Well I'm over you and all the ache  
My heart cracked but it did not break

Shattered dreams, lie everywhere  
Broken promises are all we share  
But I finally took all I could take  
My heart cracked but it did not break  
Yeah my heart cracked but it did not break
