

Out of My Bones

Randy Travis

I'm in need of a remedy
To cure me from loving you
It may sound a little extreme
I'll do what I have to do

Bury your jacket in my backyard
Carry your picture in my shoe

And keep walking till the hurting stops
Keep walking till my temperature drops
Keep walking till the fever is gone
And you're out of my bones

I'm in need of a medicine
Something strong that'll work real fast
That I can take to fortify me
To keep my arm from taking you back

Chase that ghost out from under my bed
Still these voices in my head

They keep talking weaving their spell
But I'm talking to myself
I keep 'em talking to daylight to dawn
Till you're out of my bones

Sweet amnesia come and set me free
I just need to get you out of me

Bury your jacket in my backyard
Carry your picture in my shoe

And keep walking till the hurting stops
Keep walking till my temperature drops
Keep walking till the fever is gone
And you're out of my bones
You're out of my bones
