

This Train

Randy Travis

This train is a clean train, you know this train
This train is a clean train, I said this train
This train is a clean train, everybody's riding in Jesus' name
Because this train is a clean train, I said this train

This train has left the station, you know this train
This train has left the station, I said this train
This train has left the station, this train takes on every nation
'Cause this train is a clean train I said this train

It's the prettiest train I ever have seen, this train
It's the prettiest train I ever have seen, ah this train
It's the prettiest train I ever have seen, but if you want to ride it you better get redeemed
Because this train is a clean train, I said this train

Hey, this train is bound for glory, this train
This train is bound for glory, I said this train
Hey, this train is bound for glory, everybody riding her must be holy
'Cause this train is a clean train, I said this train

Hey, this train don't pull no jokers, I said this train
This train don't pull no jokers, ah ah this train
Hey, this train don't pull no jokers, no tobacco chewers and no cigar smokers
'Cause this train is a clean train, I said this train
This train is a clean train, I said this train
This train is a clean train, I said this train
This train is a clean train, everybody's riding in Jesus' name
'Cause this train is a clean train, I said this train
Hey, this train is a clean train, Lord, I said this train
