

# Waiting On the Light to Change

Randy Travis

This old road has taken it's toll  
I've been broke down  
But now I'm back on the road  
Got it in the gear, sittin' on the go  
Just waitin' on the light to change

I'm goin' places straight to the top  
I'm all revved up and my engines hot  
Just temporarily come to a stop  
And I'm waitin' on the light to change

I took a little detour  
Wrong way down a one way street  
I had to learn the hard way  
No shortcuts to easy street

I lose my way now and then  
But better days are just around the bend  
I'm gonna get myself movin' again  
I'm just waitin' on the light to change

I took a little detour  
Wrong way down a one way street  
I had to learn the hard way  
No shortcuts to easy street

No, no, no  
Both my hands are on the wheel  
My turn will come, I know it will  
From now on it's all downhill  
I'm just waitin' on the light to change  
I'm just waitin' on the light to change

Things are moving up ahead for me now  
And I'm ready to roll, I'm waitin'  
I'm waitin' on the light to change
