

Razorblade

Randy

Razor blade, I got myself a razor blade
I got myself a razor
Makes me strong enough to face her
Razor blade, I got myself a razor blade

Razor blade, I got myself a razor blade
I'll let you count my stitches
Let you know how much it itches
Razor blade, I got myself a razor blade
Don't need a switchblade or a knife
To deprive someone their lives

Come take a walk with me
I got something you must see
Don't let the moment fade
While I take out my razor blade

Razor blade, I got myself a razor blade
Even though it cuts real deep
It still wont make you weep
Razor blade, I got myself a razor blade
Don't need a time bomb or a gun
If we're going to have some fun
Don't have to slash your wrist
Just to prove that you exist
Look at this scars it made
While I take out my razor blade
