

## The Itch You Can Not Scratch

**Randy**

The itch, have you heard about the itch you can not scratch. It infects through the senses and develops through the mind, paralyzes some parts of the brain. The carriers are usually bold with aggressive personalities. And an intelligence level far beyond the average, they're just too fucking stupid to see that it's up to me, it's up to you, it's up to everyone, because the rain will fall soon. And it will bring darkness and eventually snow. It will bring sorrow and pain and the problem will grow. The itch, have you heard about the itch you can not scratch. Ignorance, it's a disease, ignorance, by all means, Ignorance and violence is just like a disease, it's contagious and unbearable we need a medicine that heals.
