

Just One Kiss

Raphael Saadiq

It was that one kiss from you
That changed my life in just a minute, girl
It was that one kiss from you
That changed my life into a world of gold
It was just that kiss from you
That showed me what I truly needed most
Needed most
It was just that kiss from you
That showed me life can be so beautiful
Beautiful, beautiful
Oohooh, oohooh
Oohooh, oohooh

It's like you're taking the words right out of my mouth
(Yeah)
And say exactly how I feel
(Yeah, yeah)
I could fool a few, but never you
Never you
So I keep trying to find
Yeah

You sure picked the right time, lady
(Hmm)
To come into my life
(You know I did)
One kiss from you, one kiss from you
And then I knew
Oohooh, oohooh
That this was something
Oohooh, oohooh

Just one kiss from you
That changed my life in just a minute, girl
(Hmm, yes it did)
It was just that kiss from you
(Oohooh)
That showed me life can be so beautiful
Beautiful, beautiful
Oohooh, oohooh
Oohooh, oohooh

Come on, girl
Come on, boy
Bring it on down
Bring it on down

Come on, girl
Come on, boy
Bring it on down
Bring it on down

Come on, girl
Come on, boy
Bring it on down
Bring it on down
