

All Night to Get There

Rascal Flatts

Baby let's pretend
We're just kids-seventeen again
Don't let anyone know
Hold on tight and let's just let it go
This ain't just a kiss we're stealing
Let's take our time and chase this feeling

Nowhere to be and all night to get there
All night-breathing the same air
Real close and real slow baby
Just you and me and love laying right here
Sunset watching us disappear
We can do anything I don't care
We've got nowhere to be and all
Night to get there

Secret hideaway
Twilight choir in a serenade
The whole world's spinning so fast
Let's jump off and let it roll right past us
We can stay this way forever
Getting gone-getting lost together

Nowhere to be and all night to get there
All night-breathing the same air
Real close and real slow baby
Just you and me and love laying right here
Sunset watching us disappear
We can do anything-I don't care
We've got nowhere to be and all
Night to get there

Nowhere to be and all night to get there
All night-breathing the same air
Real close and real slow baby
Just you and me and love laying right here
Sunset watching us disappear
We can do anything-I don't care
We've got nowhere to be and all
Night to get there

Nowhere to be and all night to get there
