

Sunrise

Rascal Flatts

Well you can't eat, can't sleep down on the floor
Cause you never fell this hard before
Now there's nothing in this world you want more than to be free

And you're lost somewhere, you swore you'd never go
And the way back looks like a dead end road
But with one step, one breath, one smile at a time

Let me get you out of here
Wipe away all your tears
Now you're safe in these arms of mine
I won't ever let you down
Your heart will start to come around
We're gonna change your life
One sunrise at a time

Well, you can't get rid of all his lies
Thinkin' 'bout him all the time
Can I be the reason you've got nothin' on your mind

Oh, let me get you out of here
Wipe away all your tears
Now you're safe in these arms of mine
I won't ever let you down
Your heart will start to come around
We're gonna change your life
One sunrise at a time

Let me hold you tight
All through the night
Till you awake
Till all this pain
Is gone with yesterday (yesterday)
Gone with yesterday

Oh, let me get you out of here

Oh, I won't ever let you down
Your heart will start to come around
We're gonna change your life
One sunrise at a time
Oh, one sunrise
At a time
