

# They Try

Rascal Flatts

Nobody thought that we'd last as long as we have  
I guess we showed 'em  
Now I don't mean to brag  
We're pretty good at keepin' what we got goin'

I guess we beat the odds  
Hey, how 'bout us?

In this crazy world of mirrors and smoke  
Where hearts can get broke and forever's so hard to find  
People still dream, and people still hope  
That someday they'll get it right  
A love like yours and mine is why they try

You know I'll kiss you downtown  
Right there on your mouth with everyone staring  
I don't mind if they see just what you mean to me  
Girl, that's something worth sharing

Love's a beautiful thing  
Hey, let it catch on

In this crazy world of mirrors and smoke  
Where hearts can get broke and forever's so hard to find  
People still dream, and people still hope  
That someday they'll get it right  
A love like yours and mine is why they try, they try

Our best days are up ahead  
Girl, we ain't done yet  
No, far from it!

In this crazy world of mirrors and smoke  
Where hearts can get broke and forever's so hard to find  
People still dream, and people still hope  
That someday they'll get it right  
A love like yours and mine is why they try,  
They try, they try
