

# Delirium

The Rasmus

Can't get out  
I know it's closer and for now  
There's something I can't live without  
Can't save me now  
Drag me in  
And take me to my reckoning  
I'll do the time  
I'll pay the price  
I'll pay the price

All I need is you  
All I need is you  
All I need is you  
Take me to delirium  
All I need is you  
All I need is you  
All I need is you  
Take me to delirium

In my dreams  
Nothing is really what it seems  
I live my life inside my cage  
I can't escape  
On my knees  
Cave in and let my body bleed  
There's something in the air I breathe  
Are you like me?

All I need is you  
All I need is you  
All I need is you  
Take me to delirium

Somewhere someone hear me calling  
From delirium  
Someday someone catch me falling  
Are you that someone?

All I need is you  
All I need is you  
All I need is you  
Take me to delirium  
All I need is you  
All I need is you  
All I need is you  
Take me to delirium
