

Funk the neighbourhood
Rock your body to the....
kinky beat we do...
one more time

Baby don't you slap me
'n if you got to, make it snappy
your reason to feel happy,
don't you lose control
you don't like me somehow,
girl get yourself together
you don't live forever
I will chance your mind

Gotta get on, to get along
tomorrow better fight now

Baby don't get tricky,
I ain't gonna play your mother
ain't gonna play your father
I don't care that much
thought I'm concerned about
that way you don't even bother
to think about others
I love your touch
