

Friends Don't Do Like That

The Rasmus

Like a shark in a cold bloody water
Patiently you swam by my side
And the day I collapsed in the corner
You attacked like a thief in the night

Every time I close my eyes
I see your face in front of me
And it makes me wonder
how the situation got so ugly
Everything you ever leave behind
will hit you back and you'll see
You stabbed my back
Friends don't do like that

All I need is a good repayment
And maybe I can learn to forgive
Deep inside I can feel that you're sorry
and after all you will crawl back to me
