

# Mysteria

The Rasmus

Chase your star  
Hide your scar  
From the marching cavalry

Take your place  
And save your race  
Break the chains of misery  
(Mysteria)

Nine months back  
The sky grew black  
With the clouds of agony

A windless dawn  
A girl was born  
To mark the end of tragedy  
And turn the course of destiny

Mysteria  
Just remember who you are  
Mysteria  
You're the girl behind the scar  
Mysteria  
Just remember who you are

The journey  
You've taken  
Forever  
Forsaken

The answer lies  
Beneath your eyes  
Just rise up against the pain

No more tears  
No more lies  
Take the fallen through the rain  
Make the world recall your name

Mysteria  
Just remember who you are  
Mysteria  
You're the girl behind the scar  
Mysteria  
Just remember who you are

The journey  
You've taken  
Forsaken  
Mysteria...
