

# Nothing

The Rasmus

For whatever it's worth  
Yeah you've got it  
You know I love when it hurts  
I can't deny it  
Always put myself right in front of the front row  
Spending all my cash on the ones with no halo  
Spilling gasoline on my 100k Steinway  
Doing my way

For whatever it's worth  
I never meant to hurt you bad just needed something  
For whatever it's worth  
I'm playing along but we're just holding on to nothing, nothing

Holding on to nothing, nothing, nothing  
Holding on to nothing  
Holding on to no one, no one, no one  
Holding on to nothing

For whatever it's worth  
I give you nada  
I know it's gonna get worse  
Just go you gotta  
Take another sip I'm unleashing the dragon  
Spinning in my whip 63g wagon  
Take a last glance in my rear view mirror  
So clear now

For whatever it's worth  
I never meant to hurt you bad just needed something  
For whatever it's worth  
I'm playing along but we're just holding on to nothing, nothing

Holding on to nothing, nothing, nothing  
Holding on to nothing  
Holding on to no one, no one, no one  
Holding on to nothing

Always put myself right in front of the front row  
Spending all my cash on the ones with no halo  
Spilling gasoline on my 100k Steinway  
Doing my way  
Take another sip I'm unleashing the dragon  
Spinning in my whip 63g wagon  
Take a last glance in my rear view mirror  
So clear now

Holding on to nothing, nothing, nothing  
Holding on to nothing  
Holding on to no one, no one, no one  
Holding on to nothing  
Holding on to nothing, nothing, nothing  
Holding on to nothing  
Holding on to no one, no one, no one  
Holding on to nothing
