

## run to you

The Rasmus

Tomorrow's taking me away from you  
Like a jealous lover  
Kiss me one last time  
Before I go down this broken road I follow  
You will leave me torn, and sting me like  
a thorn from a dying rose  
The saddest scent of you will cling to me  
I know

I will run to you  
when my journey's over  
Wait for me  
Keep our love alive  
I will dream of you  
Till I reach the sun  
Then I'll turn around and run  
To you

If I stay with you and linger here  
Another moment  
I will fade into the scenery  
You wouldn't even see me  
I've got nothing left to offer you  
It's not that I don't care  
All I ask is that you think of me  
I swear

I will run to you  
when my journey's over  
Wait for me  
Keep our love alive  
I will dream of you  
Till I reach the sun  
Then I'll turn around and run  
To you

I hate to see you cry  
The way you look away  
Makes me wanna die

Run to you  
Wait for me  
Keep our love alive  
I will dream of you  
Till I reach the sun  
Then I'll turn around and run  
To you
