

## Save Me Once Again

The Rasmus

Like a stone I'll go down  
I'm too far to be found  
got no place for the storm  
all the love that I found  
couldn't turn me around  
drift away all alone

Don't say this is the end  
I think I'm lost again

Thank you for your patience  
the time that you gave me  
I think I never knew  
you were trying to save me  
free me from the shadows  
that lay on my shoulder  
please don't say that it's over, it's over, it's over

I confess I was weak  
got my heart full of greed  
wanted more than I need

I'm standing on the edge  
afraid of emptiness  
don't leave me  
I'm begging you my friend

Don't say that it's the end  
I think I'm lost again  
I'm standing on the edge  
don't leave me  
I'm begging you my friend  
save me once again  
would you save me once again  
would you save me once again
