

# Small Town

The Rasmus

You get no kick out of champagne  
Things make you sick by staying the same  
So lame  
And if you think that you know everybody  
And if it seems inspiration is gone  
Days when it feels like nothing can turn you on

Chorus:

Open your eyes to the life in this small town  
How many times you've been leaving?  
Oh yeah  
And so it seems we keep coming back home  
So open your eyes to the life in this small town

I've always run straight to the flames  
I've lost my face in a thousand ways  
Oh yeah  
Still you don't give a damn about my reputation  
Take me as I am  
You are my family  
If you get lonely you know where you will find me

Chorus

Open your eyes to the life in this small town  
How many times you've been leaving?  
Oh yeah  
And so it seems we keep coming back home  
So open your eyes to the life in this small town

And there is no way out if you don't wanna talk about it  
If you don't wanna turn around  
I wanna have confidence in you

Chorus (2x)

Open your eyes to the life in this small town  
How many times you've been leaving?  
Oh yeah  
And so it seems we keep coming back home  
So open your eyes to the life in this small town

Open your eyes to the life in this small town  
How many times you've been leaving?  
Oh yeah  
And so it seems we keep coming back home  
So open your eyes to the life in this small town
