

Stranger

The Rasmus

I can't believe that it's over
I lost this one
Tonight I'll run free
I wish I had someone to guide me
And pull me up
'cause the lights can't find... me

Stranger... Take me home

I wish I had already found You
I've wasted time
My mind had grown black
I wish I had already know you
You'll save my life
You brought my faith back

Stranger... Take me home
Stranger

And I will love you
Only for tonight
I don't know You
But it's all right
Let me show you heaven

Stranger, take me home

Somehow I feel like I've known you all my life
And we have been together
I've been missing vital pieces
You might be the answer stranger

And I will love you
Only for tonight
I don't know You
But it's all right
Let me show you heaven

Stranger, take me home
Stranger... take me home
