

Ten black roses

The Rasmus

Life is like a boat in a bottle,
Try to sail you cant with no air,
Day by day it only gets harder,
Try to scream but nobody cares,
Through the glass you see the same faces,
Hear their voices fade like a drum,
When your life's a boat in a bottle,
You're surrounded drifting alone,

Don't leave me now,
stay another day,
with me,

When you're sad and no-one knows it,
I'll send you black roses,
When your heart is dark and frozen,
I'll send you black roses,

Far away we wait for each other,
I'm still on that road to nowhere,
Kiss yourself for me in the mirror,
Tie a black rose into your hair,

Don't lose your faith,
share another night,
with me,

When you're sad and no-one knows it,
I'll send you black roses,
When your heart is dark and frozen,
I'll send you black roses,

10 black roses (2x)

Life is like a boat in a bottle,
Try to sail you can't with no air,
Day by day it only gets harder,
Try to scream but nobody cares,

When you're sad and no-one knows it,
I'll send you black roses,
When you're heart is dark and frozen,
I'll send you black roses
