

Call me your lover

If you hang around with me tonight
I'll show you how to do
something wicked
if you don't have anything to do
you're looking pretty and you know
that we should keep going on
'cos we ain't got no time to polish your nails
no time to put more make up on

Turn around and you will find me to guide you
everywhere that you go
turn around you will find me behind you
oh! yes I ain't going anywhere you know

So if believe that loneliness is breaking you
so this place is the right one where
I'm gonna take you to
I've gotta feeling I know you still like him bad
tonight at the party no one's going to be sad
