I woke up in the mornin', I'm still flat on my back Couldn't move a muscle like I had a heart attack The night was wild and woolly Didn't think I'd make it through it 'Cause lovin' you's a dirty job And I'm the man to do it

Lovin' you is a dirty job, lovin' you is a dirty job

You put me through the ringer and hung me out to dry
You licked me off your fingers just like a piece of pie
You break my heart in pieces
But I've got the glue to glue it
Girl lovin' you's a dirty job
And I'm the man to do it

Lovin' you is a dirty job, lovin' you is a dirty job Lovin you is a dirty job Girl lovin' you's a dirty job and I'm the man to do it

I'm gonna hold you till the end of time
I'm gonna love you 'cause it's now or never
I'm gonna kiss you till I make you mine

Lovin' you is a dirty job, lovin' you is a dirty job

I'm gonna hold you till the end of time
I'm gonna love you 'cause it's now or never
I'm gonna kiss you till I make you mine

Lovin' you is a dirty job, lovin' you is a dirty job Lovin you is a dirty job Girl your love is thicker than mud And you're trying to drag me through it now

Lovin' you is a dirty job, lovin' you is a dirty job
