

# So Good, So Fine

Ratt

Get these big wheels turnin  
Within those white lines  
Wondering do you still feel at home  
It's been an awful long long time  
I ain't been caught smokin  
Don't tell lies  
Feel the rhythm in the cars  
Rollin across the state line  
Do you think we could have a little  
There's no more todays  
Don't you think we should have a little faith  
So much more

It's so good, so good  
It's so fine, so fine  
It's so good, so good  
And it's all mine, so fine

Thanks so much for the talkin  
Glad to be obliged  
Did you feel the cross did ya feel the loss  
When your runnin at the line  
I keep your heart hangin  
Read between the lines  
Until the day  
Water turns to wine

Do you think we could have a little  
There's no more todays  
Don't you think we should have a little faith  
So much more

It's so good, so good  
It's so fine, so fine  
It's so good, so good  
And it's all mine, so fine

It's so good, so good  
It's so fine, so fine  
It's so good, so good  
And it's all mine, so fine

Your 9 to 5 is such a crime  
Feel the rhythm in the cars  
Rollin across the state line  
Gimme one more just like today,  
It's so good

Do you think we could have a little  
There's no more todays  
Don't you think we should have a little faith  
So much more

It's so good, so good  
It's so fine, so fine  
It's so good, so good  
And it's all mine, so fine

It's so good, so good  
It's so fine, so fine  
It's so good, so good  
And it's all mine, so fine
