

U Got It

Ratt

You don't tell me that you're working so hard
I've been working myself
I've found something I need
I'm not taking no chances in this town

You party hard with rock'n'rollers
You listen while you can
There's only one life to lead
So live it while you can

U got it
If you want it
You're not taking your chance with me
U got it
If you want it
You're not taking your chance with me
U got it
If you want it
You're not taking your chance with me
U got it
If you want it
You're not taking your chance with me

Yeah

Well don't you tell me that you're working so hard
I've been working myself
I've found something I need
I'm not taking no chances

U got it
If you want it
You're not taking your chance with me
U got it
If you want it
You're not taking your chance with me
U got it
If you want it
You're not taking your chance with me
U got it
If you want it
You're not taking your chance with me

Yeah
