

Little Boy

Rattle Bucket

Never more
In the middle of a new house
I just kicked her
Theres no more us
I've got a new wife with blond hair and big smile
Look at me I've got seventeen new cars
I've got money, great body and young girls
I've got respect of people and parents
I've got an IQ one hundred and fourthy
I despise off you cause you are all stupid crowd

Every day, every night guests want to come
Look at me I have never had a scar
This is my world it's time for
Fun with you cause

I'm a little boy
I can do everything
I've got my ambitions and you're my friends

I'm a little boy
Adore me I'm sure you will
I'm not patient so hold me babe

Get out of my new house...

I just kicked her
Theres no more us
I've got a new wife with blond hair and big smile
Look at me I've got seventeen new cars
I've got money, great body and young girls
I've got respect of people and parents
I've got an IQ one hundred and fourthy
I despise off you cause you are all stupid crowd

Every day, every night guests want to come
Look at me I have never had a scar
This is my world it's time for
Fun with you cause

I'm a little boy
I can do everything
I've got my ambitions and you're my friends

I'm a little boy
Adore me i'm sure you will
