

## My Game

Raunchy

The noise pumping through your insides  
Makes you wanna scream in pain  
Visions get incomprehensible  
You loose the touch with your brain

As the blood runs thick and warm  
You're melting down inside  
The music's hammering never ends  
Realization si denied

You can't run you can't hide  
Not this time  
You're trapped in my game  
Filled with pain  
I'm to blame

Now I've got you on your knees in front of me  
You're so little you never were shit and you'll never be

You can't run you can't hide  
Not this time  
You're trapped in my game  
Filled with pain  
I'm to blame  
You're mine until the music stops  
Your temperature raises your body drops  
And now you'll never forget me

Now I've got you on your knees in front of me  
You're so little you never were shit and you'll never be
